

Members of Pritchett Water Supply Corporation
Notification of Maintenance/Repairs on Plant #15

Beginning, Tuesday, September 7, 2021 Pritchett WSC will be doing mandatory maintenance on Plant #15, located at: 4068 Pignut, Rd., Gilmer, TX. The tank will be bypassed and taken out of service for the duration of the maintenance to continue approximately 3 weeks. You will not be without water, however, you may experience a variance of pressure and possible discolored water. The water has been disinfected and safe for use but due to pressure changes, minerals that discolor the water may be observed. We ask to please be patient as these maintenance issues must be addressed and completed according to TCEQ standards. We also ask you to contact the office @ 903-734-5438 if you experience any issues to help us pinpoint problem areas, and please be conservative with water usage as much as possible. We apologize for any inconveniences during this time of maintenance. We have highlighted areas on the map for you to see if your water may be affected.

Only some area of these roads maybe affected, however, not all in their entirety;

FM 1795 in the Kelsey area, Bois D' Arc, Beechnut, Black Gum Magnolia, Ballard, FM 49, Nandena, Hemlock, Andrew Circle, Nectarine, Elderberry, Black Walnut, Ash Trail, Boxwood, Ashley Venn, Hackberry, Pignut, Red Oak, Mildred Appletree, and some parts of Arrowwood
