

Boil Water Notice for Community Public Water Systems
April 5, 2025

Due to low pressure and members possible without water, the Texas Commission on Environmental Quality has required the Pritchett Water Supply Corporation, TX2300012 public water system to notify all customers in the affected areas, to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions).

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it is no longer necessary to boil the water, the public water system officials will notify customers that the water is safe for drinking water or human consumption purposes.

Once the boil water notice is no longer in effect, the public water system will issue a notice to customers that rescinds the boil water notice in a manner similar to this notice.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions concerning this matter, you may contact Pritchett Water Supply Corporation at 903-734-5438, 3670 State Hwy 155 S, Gilmer, TX 75645. You may also view this notice on our website www.pritchettwater.com in English or Spanish.

The areas affected by this notice are from Plant 6 at 8343 FM 1795, Big Sandy, TX 75755. FM 1795 from Red Maple to FM 1002, including Sassafras, Tan Oak, Silver Maple to Live Oak, FM 1002 going to South White Dogwood, FM 1002 going South and including Beach, Birch Bamboo, Chestnut, Texana, FM 1795 West, Cypress Loop, Catalpa and CR 3689.

Mains will be flushed and samples will be submitted to insure safe drinking water.
